LIFTING TECHNOLOGY PIT JACK

MPJ 16.5/1200 2S HA VP 454280

MPJ 16.5/1200 2S HA

VP 454280

The axle and transmission jack lifts up to 16.5 t. The axle and transmission jack, with double telescopic cylinders (max. stroke 1200 mm), runs along top positioned rails. Load-free, a compressed air speed control function ensures fast movement of the two telescopic segments as well as fast retraction of the piston rods. The equipment also includes an air motor with foot pedal control for lifting the piston rod under load.

PRODUCT DETAILS/ACCESSORIES

2-stage telescopic, rail-guided, suspended

Description:

Automatic axle and transmission jack with pneumatic motor and fast control in slim design specifically for dismantling assemblies and lifting vehicles up to 16.5 t

Control

- Unique synchronised telescopic lifting cylinder for quick load lifting with fast control
- Efficient fast control for UP and DOWN movement integrated as standard
- Precision, user-friendly foot control using compact and robust operating unit for quick lift and load lift
- Delicate and precision lowering of the pit jack with tried & tested system with integrated dead man's control
- Telescopic stages protected against corrosion thanks to the Venturi effect (separation of hydraulic oil and airflow)
- Integrated cover to protect against unintentional operation

Design:

· Suspended telescopic pit jack specifically for difficult floors in

- work pits, with custom-made carriage adapted specifically to the individual work pit based on dimension sheet
- Precision-guided track rollers (flange guided)
- Secure jack holding brake in transverse direction across the work pit
- Integrated inspection window for checking oil quality and quantity of the pit jack
- Optimised removal of the dismantled units thanks to low construction height of the jack due to ideal arrangement of the lifting unit in the carriage
- Corrosion-resistant piston rods thanks to self-lubrication
- High-quality powder-coating protects against corrosive liquids and elevates quality look and feel on a lasting basis

Scope of delivery:

- Pit jack with hydro-pneumatic automatic control system
- Hanging carriage with four rollers for rails
- Standard support lugs 120 x 120 mm
- Operating instructions
- EC conformity certificate
- · Colour: Jack base frame RAL 7040
 - Attachments and carriage RAL 7016

TECHNICAL DATA

Load capacity (CE)	16,500 kg		
Fast stroke power	400 kg		
Stroke distance	1200 mm		
Lifting levels	2		
Min. pick-up height	Made-to-measure		
Pit jack depth for roller slide rail	Made-to-measure		
Max. lifting height above roller slide rail Made-to-measure			
Slide rail width inner dimensions	700 1200 mm		
Carriage adjustable range	Made-to-measure		
Roller rest width	40 mm		

LIFTING TECHNOLOGY PIT JACK

MPJ 16.5/1200 2S HA VP 454280

TECHNICAL DATA

Roller rest incline	8 % / 4.6°
Max. parallelism deviation slide rails	10 mm
Roller diameter (at the flange)	80 (95) mm
Support diameter inside/outside	45/80 mm
Piston rod diameter	80/115 mm
Oil quantity/quality	14.5 I / HLP-D 22
Drive	350 l/min. 7-10 bar
Operating pressure in block	235 bar
Weight	410 kg
